## TO CUSTOMER

At MultiAxis Manufacturing, we specialize in providing high-quality sheet metal fabrication services tailored to meet the unique needs of our clients. With combined 20+ years of experience in the industry, we have established ourselves as a trusted provider of precision metal fabrication solutions.

## Our Priority is Quality

We maintain strict quality control measures throughout the fabrication process to guarantee the highest standards of workmanship and product quality.

# MULTIAXIS MANUFACTURING

## WHAT WE DO

### LASER CUTTING

Our advanced 3KW Fiber laser cutting technology allows for precise and intricate cutting of various metals, ensuring clean edges and minimal material waste.

### FORMING

We offer state-of-the-art press brake services for bending and forming sheet metal into precise shapes and angles.

### WELDING

Our skilled welders and assembly technicians provide expert welding services to join metal components and assemble finished products. We offer MIG, TIG and Spot Welding

### CNC MACHINING

In addition to our sheet metal fabrication services, we also offer comprehensive CNC machining capabilities to meet a wide range of manufacturing needs.

### FINISHING AND COATING

We offer a range of finishing options, including powder coating, painting, and plating, to enhance the appearance and durability of fabricated metal parts.

### PROTOTYPING

Whether you need a one-off prototype or large-scale production runs, we have the capabilities to fulfill your sheet metal fabrication needs.
